

TEEN EARLY INTERVENTION SERVICES - OROVILLE

This program provides targeted, indicated prevention services for teens in grades 6–12 who are at risk for substance use/misuse, mental health concerns, academic difficulties, or emotional and social challenges. The goal is to offer accessible, school and community-based support that promotes health and wellness by increasing knowledge of risk and protective factors, strengthening coping skills, and building self-efficacy.

Reconnecting Youth - Coping and Support Training (CAST) is an evidence-based, 12-lesson, skills training program. Content includes: Building Self Esteem, Decision Making, Personal Control & Setting Goals.

Brief intervention (BI) is an evidenced-based approach that aims to reduce substance use and its associated risks, as well as prevent progression to more severe levels of use and potential negative consequences. Includes screening and linkages to care.

SERVICES ARE FREE & OPEN TO ALL BUTTE COUNTY TEENS GRADES 6TH - 12TH
